Product Hair dye

Name Black Rose

Packaging description Box printed with various colours, with a sachet made from coated black plastic.

Brand Unknown

Is the product counterfeit? Counterfeit

Batch number B.NO.1001

Barcode 81586500041

Product description Herbal based black henna in the form of powder.

Risk type Chemical

Risk description The product contains sodium perborate (as declared on the packaging), which releases boron (measured value: 21.4 mg/kg) and is forbidden in cosmetic products. Additionally, the product contains p-phenylenediamine (PPD) (measured value: 12.76 % by weight). Ingestion or contact with an

excessive quantity of boron may harm the health by damaging the reproductive system or the unborn child. PPD is an extreme skin sensitiser and can trigger allergic contact dermatitis.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

Type / number of model #0129-4074413

Batch number Packaging: "115"; Container: "111"

Barcode 815865000122

Product description Black powder hair dye.

Risk type Chemical

Risk description According to the list of ingredients, the product contains Barium peroxide, which is forbidden in cosmetics and releases barium; the latter substance was found in the product

(measured value: 7.8% by weight). Barium can be easily absorbed and has toxic effects on the body impairing muscle, heart and kidney activity, leading to arrhythmia, paralysis or gastrointestinal alterations. Furthermore, the product contains p-phenylenediamine (PPD) (measured value: 12.64% by weight) with an insufficient coupling agent. Uncoupled PPD is an extreme skin sensitiser and can trigger allergic contact dermatitis.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Cosmetic Products Regulation.
