Product **Bath product**

Risk type **Chemical Choking**

Due to their characteristic appearance, form, colour and size, the product may be mistaken for foodstuff. Small parts can easily detach from it, in particular if the product is bitten. A small child may then put it in the mouth and choke on them. Additionally, due to the product's composing ingredients, the small parts ending in the digestive tube can damage the health of the child.

The product does not comply with the Cosmetic Products Regulation and the requirements of the Food Imitating Directive.
