15th March 2024

Dear Healthcare Professional,

We wish to advise you that the above listed batches of Medical Carbon Dioxide (C and E Size cylinders - 201-C and 201-E) are being recalled with immediate effect.

The reason for the recall is the potential for cylinders to be out of specification for carbon dioxide content, due to contamination with atmospheric air.

The recall has been agreed with the Health Products Regulatory Authority (HPRA).

This recall is to **hospital / clinic level**. As this is a precautionary recall you are not required to contact patients to whom the impacted batches have been administered.

We kindly request that you perform the following actions:

1. Immediately quarantine any cylinders from the above listed batches in your possession. This includes all stock on wards, clinics, or any other locations within your facility.
2. Tag the quarantined cylinders with a BOC faulty cylinder tag, to identify the affected cylinders for collection.
3. If you have supplied any other pharmacy, clinic, or any other facility with units from the above-listed batches, please immediately forward a copy of this recall letter to them, requesting that they quarantine and return any units of the impacted batches to you.
4. Inform BOC of the quantity of cylinders from the above listed batches in your possession by contacting the Customer Service Centre on telephone no. 1800 355 255. Please also complete the Customer Return Form below and email this to Michael.Shannon@boc.com. The collection of affected stock will then be arranged.
5. Quarantined stock should be notified to BOC by Friday 29th March 2024 in order to receive credit or replacement stock.

Un-impacted stock is available to order at this time. We apologise for any inconvenience this action may cause.

Should you have any queries, please contact Michael Shannon at telephone no. 00-353-87-2439080 or email michael.shannon@boc.com. If you wish to report an Adverse Drug Event for this product, please contact BOC on telephone no. 1800 355 255, and/or email the HPRA at medsafety@hpra.ie
