29th February 2024

Dear Pharmacist,

We wish to advise you that the above-listed batches of Osteomel Once Weekly 70 mg tablets are being recalled with immediate effect.

This recall is going to **pharmacy level**. This action has been agreed with the Health Products Regulatory Authority (HPRA). As this is a pharmacy level recall, you are not required to contact patients to whom the above-listed batches have been dispensed.

The reason for the recall is due to out of specification results for the parameter disintegration identified in a number of batches.

We request that you please perform the following actions:

- Immediately quarantine any units of the above-listed batches which you have in your possession. For hospital pharmacists, this includes all stock at ward or clinic level. Please make relevant staff at your facility aware of the contents of this recall notification.
- Complete the customer return form overleaf indicating the quantity of each batch in your possession and whether you would prefer replacement or credit. Please email the completed form to recall@clonmel-health.ie to arrange pick-up and credit or replacement stock. Please include a copy of the customer return form with the returned units.

- All recalled stock must be returned to Clonmel Healthcare Ltd by **Friday 16th March 2024** in order to receive credit or replacement stock.
- If you have supplied any other pharmacy, clinic, or healthcare facility with units from the above-listed batches, immediately forward a copy of this recall letter to them, requesting that they quarantine and return any units of the impacted batches to you.

Un-affected stock is available to order at this time.

We apologise for any inconvenience this action may cause. Should you have any queries, please contact Medical Information at telephone number 052 6177777. If you wish to report an Adverse Drug Event for this product, please email medicalinformation@clonmel-health.ie.

Yours sincerely,

Julia Ryan, Quality Manager
