

Welcome to lap·band[®]

S Y S T E M

Dear

Welcome to the LAP-BAND[®] System! Below you will find your new Patient Identification Card

Why should I carry an ID Card?

In case of an emergency, we recommend all patients carry their ID Card, so they can be easily identified as having an implanted medical device. The card should also be carried with you when you go through airport security. Additionally, the card contains phone numbers for your physician.

Please carry this with you at all times.

* To assemble your card, fill out the information on each line, then cut along the outside dotted line. Fold the card on the center dotted line and so that all the information is visible on both sides

  Patient Identification Card Name <input type="text"/> This person has an Adjustable Gastric Band implanted around the stomach to assist in weight loss. This device is MR conditional. 	<table><tr><td>DR.</td><td><input type="text"/></td><td rowspan="5"></td></tr><tr><td>PH.</td><td><input type="text"/></td></tr><tr><td>REF.</td><td><input type="text"/></td></tr><tr><td>SN.</td><td><input type="text"/></td></tr><tr><td>FILL RANGE</td><td><input type="text"/></td></tr></table>	DR.	<input type="text"/>		PH.	<input type="text"/>	REF.	<input type="text"/>	SN.	<input type="text"/>	FILL RANGE	<input type="text"/>
