

HPRA webinar on requirements for veterinary medicines for pets that qualify for registration under Article 5(6) of Regulation 2019/6

Welcome | Fáilte

14 May 2021

Objectives

- To raise awareness of upcoming changes arising from Regulation 2019/6 that will impact on the regulation of exempted veterinary medicinal products intended for aquarium and pond fish, caged birds, homing pigeons, terrarium animals, small rodents, ferret and pet rabbits.

Outline of the webinar

- **Introduction, qualifying products** – J. Gabriel Beechinor
- **Manufacturing requirements** – Paul Sexton
- **Dossier and labelling requirements** – Gavin Ryan
- **Pharmacovigilance** – Paul McNeill
- **National registration timelines** – J. Gabriel Beechinor
- **Q & A**
- **Conclusion** – David Murphy

Addressing your questions

- Use the Q&A function to submit questions. Indicate who the question is addressed to.
- There will be a time lapse between submitting a question and it appearing in the feed.
- Answers will be given verbally during the Q&A slot (no written responses during the webinar).
- All questions, and written responses, will be published on the HPRA website.
