

Batch Recall

Ketofen 10% Solution for Injection, VPA10815/051/001

Batch no.	Exp. date
113AB	31/03/24

27th August 2021

Dear Veterinary Surgeon,

We wish to advise you that batch no. 113AB of Ketofen 10% Solution for Injection, VPA10815/051/001, is being recalled with immediate effect.

This recall is going to **veterinary surgeon level**. This action has been agreed with the Health Products Regulatory Authority.

Reason for recall: Particulate contamination was identified during visual inspection of this product at the manufacturing site. The above batch has been identified as being within scope of this issue.

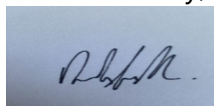

You are requested to:

1. Please immediately quarantine any units of this batch that you have in your possession.
2. Please send a copy of this recall letter to any other veterinary practice you have supplied with units from this batch, requesting that they quarantine and return any unsold quantities of the batch to you.
3. Please contact your supplier to arrange the return of the quarantined units. Full credit will be issued for units returned up to 30th September 2021.

Should adverse reactions or lack of efficacy be suspected following use of this batch please contact Paul Kennedy, Ruminant National Business Manager, at telephone no. 01 4518959.

Unaffected packs of this product are not available to order at this time. We apologise for any inconvenience this issue may cause.

Yours sincerely,

Dr Andrew Forsyth BVMS GPCert(ExAP) MRCVS
