Urgent Field Safety Notice

Date: 27/03/2018

Product Code & Name: W11050 Columbia Blood Agar

Lot Number: 0034689930

Expiry Date: 2018-04-19

Customers are advised that contamination has been reported in W11050 Columbia Blood Agar, lot number 0034689930. The contaminant is presenting as a white colony and will be sent to an independent laboratory for identification.

Columbia Blood Agar is a multi-purpose medium suitable for the cultivation of fastidious organisms.

Fannin LIP is issuing this Field Safety Notice due to the risk that the contamination could interfere with growth of the target organisms and erroneous results could occur.

Customers who received this lot should review results from plates if already used.

Can you please dispose of any unused packs on site and confirm this action has been completed with the return of the attached Fax Back Form.

This notice needs to be passed on to all those who need to be aware within your organisation or to any organisation where the potentially affected devices have been transferred.

Please maintain awareness of this notice and resulting action for an appropriate period to ensure effectiveness of the corrective action.

The HPRA has been notified

A handwritten signature in blue ink, appearing to read "Irene Slevin", written over a horizontal line.
