Urgent Field Safety Notice

Immunoassay Control – IA2640 – I364EC

Immunoassay Premium Plus Control – IA3112 – 334337 –1364EC

Complaint Reference: 242

Action Type: Device Modification

Date: 10th August 2015

Dear Valued Customer

We are currently investigating an issue with the products listed below and are providing this Urgent

Field Safety Notice to inform you of this occurrence.

Detail on Affected Devices: Immunoassay Control IA2640 lot 1364EC and Immunoassay

Premium Plus Control IA3112 batch 334337 lot 1364EC.

Description of the Problem: PTH stability has been reduced in control lot 1364EC. It is now

recommended that PTH is tested immediately after reconstitution.

Risk to Health: The contents of this letter should be discussed with your Medical Director. It is

unlikely the error will cause misreporting of patient results as values for PTH using this lot would fall

outside of the assigned ranges.

Action to be taken: Update stock with amended IFU and important notice.

Complete and return the vigilance response section of this form to technical.services@randox.com

within five working days.
