

## Notification of Medicinal Product Shortages

Epilim Intravenous 400mg Powder and Solvent  
for Solution for Injection or Infusion, PA 540/150/013

Nozinan 25mg/ml Solution for Injection/Infusion, PA 540/115/1

June 2022

Dear Pharmacist,

Sanofi regret to inform you of a shortage in Ireland of the following two products:

Nozinan 25mg/ml Solution for Injection/Infusion (levomepromazine hydrochloride)  
This product is out of stock with resupply currently not expected before end of July 2022 at the earliest.

And

Epilim Intravenous 400mg powder and solvent for solution for injection or infusion (sodium valproate).

This product may be out of stock for several weeks, with resupply currently not expected before end of July 2022.

Other presentations of Epilim are not affected by this shortage and remain available.

Sanofi have imported quantities of *Epilim 400 mg Powder and Solvent for solution for injection/infusion (PL 04425/0685)* and *Nozinan 25 mg/ml Solution for Injection/Infusion (PL 04425/0659)* from the UK for sale as exempt medicinal products in Ireland in an effort to mitigate the impact of these shortages. These products are available to order from your wholesaler.

Sanofi sincerely apologises for the inconvenience caused to you and your patients by these shortages which are due to manufacturing issues beyond our control. We are however, doing everything possible to expedite the earliest possible return to supply.

Updated information on the return to supply for both products will be available on the shortages section of the HPRAs website.

If you require any further information, please contact Sanofi Medical Information on 01 403 5600 or email [Imedinfo@sanofi.com](mailto:Imedinfo@sanofi.com)

Yours sincerely,

Deborah Woods

Head of Medical, General Medicines, UK and Ireland
