**Re: Update on the availability of:**

**RoActemra (tocilizumab) 162 mg solution for injection in Pre-Filled Pen**  
**RoActemra (tocilizumab) 162 mg solution for injection in Pre-Filled Syringe**  
**RoActemra 20mg/ml concentrate for solution for infusion**

Dear Healthcare Professional,

Further to our recent communications regarding the availability of RoActemra formulations, we are writing to you to share the latest updates on the intravenous (IV) formulation and on the subcutaneous (SC) presentations.

**Subcutaneous Formulations**

We are experiencing a shortage of the Pre-filled Pen presentation and expect to stock out in the coming week. We will receive our next delivery which is scheduled for the 27th of September. We have also locked a small number of the pen for any severe patients, please contact Roche directly for further information on this. In case it is helpful for your patients, please note that we do have adequate stock of the Pre-Filled Syringe.

**IV Formulation**

We currently have sufficient IV stock for patients. We will continue to work with hospitals on an individual basis to ensure we give as much notice as possible, in the event that a shortage is to occur. We remain optimistic that deliveries will continue to arrive into Ireland.

Thank you for your continued support and understanding on this complex and evolving topic. We will of course continue to share updates in a timely manner.

If you have any queries or require more information, please contact Medical Information at Roche Products (Ireland) Limited by telephone 01 4690700 or email ([Ireland.druginfo@roche.com](mailto:Ireland.druginfo@roche.com)).

Yours sincerely,

Roche Products (Ireland) Limited
