**PUBLIC ASSESSMENT REPORT**

The public assessment report reflects the scientific conclusion reached by the HPRA at the end of the evaluation process and provides a summary of the grounds for approval of the marketing authorisation for the specific veterinary medicinal product. It is made available by the HPRA for information to the public, after the deletion of commercially confidential information. The legal basis for its creation and availability is contained in Article 25.4 of EC Directive 2001/82/EC as amended by Directive

2004/28/EC for veterinary medicinal products. It is a concise document which highlights the main parts of the documentation submitted by the applicant and the scientific evaluation carried out by HPRA leading to the approval of the product for marketing in Ireland.

The Summary of Product Characteristics (SPC) for this product is available on the HPRA website.

## **I. SCIENTIFIC OVERVIEW**

The quality / safety / efficacy aspects of this product are identical to Noromectin 1% w/v Solution for Injection for Cattle and Pigs (10999/076/001). The initial application for Noromectin 1% w/v Solution for Injection was assessed before there was a requirement to have a public assessment report, therefore no details in this section are available.

Please refer to section VI for significant post-approval changes which are important for the quality, safety and efficacy of the product.

## **II. QUALITY ASPECTS**

See section I.

## **III SAFETY AND RESIDUES ASSESSMENT (PHARMACO-TOXICOLOGICAL)**

See section I.

## **IV. CLINICAL ASSESSMENT**

See section I.

## **V. OVERALL CONCLUSION AND BENEFIT/RISK ASSESSMENT**

On the basis of the original data submitted, the HPRA considered that the product demonstrated adequate evidence of efficacy for the approved indications as well as a satisfactory benefit/risk profile and therefore granted a marketing authorisation.

## **VI. POST-AUTHORISATION ASSESSMENTS**

The SPC and package leaflet may be updated to include new information on the quality, safety and efficacy of the veterinary medicinal product. The current SPC is available on the HPRA website.

This section contains information on significant changes which have been made after the original procedure which are important for the quality, safety or efficacy of the product.

***Safety/Efficacy Changes***

<b>Summary of change (Application number)</b>	<b>Approval date</b>
Addition of target species – sheep and pigs (CRN 7001505)	11/09/2007
